

Where is the Santa Ana Sucker?: An Exploration Through Videography

Wendy Norena and EA30!!!!

September 6, 2016

Introduction

Diel movement with a Go Pro... succession changes in algae...Video with experimental manipulation of rocks with and without algae on them. E. fork of San Gabriel behavior is much different. More cover...

Select a pool, six pools...too much! exploratory study. Where does the Santa Ana Sucker like to hang out? Is it possible that we could capture images of the Santa Ana Sucker in some places more than others?
